## Health and Safety Protocols: Fall 2020

We're so excited to be back in studio for lessons this Fall! We want to continue to have fun learning to love music — and a part of that is having confidence that our classes are as safe as possible for everyone. We'll closely watch any developments to state guidelines, but here are some of the protocols in place as of September 2020:

### Hygiene / Cleaning:

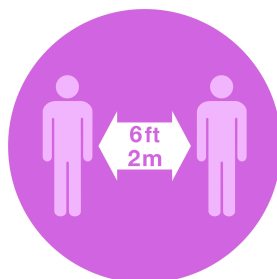

Between every class, all keyboards will be cleansed with disinfectant wipes.

Please also note that all group students must provide their own headphones.

### Face Coverings:

Face coverings are required for students, and for guardians entering the Academy for drop off / pick up.

### Distancing Protocols:

The keyboards in our Academy have been spaced to greater than 6 feet. To accomplish this, classes are unfortunately limited to a maximum of 4 students.

No more than one adult may wait for students in the lobby. This limit unfortunately includes any non-student children.
